## SUMMARY

In this Petition, Telepak Networks, Inc. d/b/a C Spire Fiber, the grantee of a cable franchise in Diamondhead, Mississippi (the “Community”), demonstrates conclusively that the local television markets of WLOX (Biloxi, MS) and WXXV (Gulfport, MS) (collectively, the “Stations”), should be modified to include Diamondhead, Mississippi. Diamondhead lies in Hancock County, Mississippi which is an “orphaned county” in that the County is part of the New Orleans, Louisiana Designated Market Area (“DMA”). In 1996, the Commission modified the WLOX local television market to include all unincorporated Hancock County and the community of Kiln, a community further away from WLOX than Diamondhead. Diamondhead was not included in the petition. Diamondhead should be deemed part of WLOX’s local market, similar to the unincorporated portions of Hancock County and Kiln. This petition satisfies all five statutory factors for modifying the local television market for both Stations to include Diamondhead.

This Petition addresses the lack of in-state programming that residents in Diamondhead receive from the New Orleans DMA stations due to its location in an orphaned county and satisfies the four other statutory factors that the Commission must consider when evaluating whether to modify a station’s television market. First, WLOX and WXXV have been historically carried in Diamondhead. The FCC’s records indicate that WLOX has been carried in Diamondhead since 1985 and WXXV since at least 2006. WXXV is still carried in Diamondhead by the incumbent cable operator as an out-of-market station along with the New Orleans stations. WLOX was only recently deleted from the incumbent cable operator’s channel line-up on January 1, 2018 at the end of the last retransmission consent cycle. Second, the Stations provide an extensive amount of local programming directed at Diamondhead, and Diamondhead is within WLOX and WXXV’s natural geographic market. Third, the New

Orleans DMA stations considered local in Diamondhead air little to no programming expressly directed toward residents of Diamondhead. Fourth, WLOX and WXXV have reportable ratings in Diamondhead. In addition, a strong economic nexus exists both between Diamondhead and Biloxi, and Diamondhead and Gulfport. Finally, the citizens of Diamondhead, in response to a survey sent out by the Diamondhead Mayor, overwhelmingly support the inclusion of Diamondhead as local to WLOX and WXXV. The Commission should grant this Petition for both Stations.

**PETITION FOR SPECIAL RELIEF**

**I. INTRODUCTION**

Telepak Networks, Inc., d/b/a C Spire Fiber hereby requests that the Commission modify the television market of WLOX, Biloxi, Mississippi, and WXXV, Gulfport, Mississippi, to include the community of Diamondhead, Mississippi, which is in Hancock County. Hancock County is in the New Orleans DMA, giving it the status of an “orphan county.”

Diamondhead is a quintessential example of the problem Congress was trying to solve when it amended the Communications Act in 2014 and directed the Commission to consider a new statutory factor – whether modifying the market of the television station would promote consumers’ access to television broadcast station signals that originate in their State of residence.<sup>1</sup> Hancock County, as an orphan county, unsurprisingly receives almost exclusively Louisiana-focused local programming from the New Orleans DMA stations. Diamondhead is

---

<sup>1</sup> Satellite Television Extension and Localism Act Reauthorization Act of 2014, Pub. L. 113-200, 128 Stat. 2059 (2014) (“Satellite Reauthorization Act of 2014”).

approximately 60 miles away from New Orleans and its small size and out-of-state location offers little incentive for New Orleans stations to cover issues of local importance.<sup>2</sup>

Significantly, the New Orleans stations do not cover local weather forecasts, alerts, and warnings about Diamondhead to the extent offered by WLOX and WXXV. Diamondhead is in Mississippi's 4<sup>th</sup> United States Congressional District.<sup>3</sup> This is the same district as Biloxi and Gulfport, making both WLOX and WXXV's coverage of local, state, and national politics particularly relevant to the Diamondhead community. The New Orleans stations cover local, state and congressional politics as they relate to Louisiana, depriving Diamondhead of relevant Mississippi and local political coverage.

This Petition addresses not only the current lack of in-state broadcast programming that residents in Diamondhead receive from the New Orleans DMA stations, but also satisfies the other four statutory factors that the Commission must consider when evaluating whether to adjust a station's local market. Further, there is also a strong economic nexus between Diamondhead and the Stations' cities of license, Biloxi and Gulfport. Both, WLOX and WXXV, meet all the statutory criteria for obtaining status as a local station in Diamondhead, and additional factors weigh further for including Diamondhead in WLOX and WXXV's market. The Commission recognized as much in 1996 when it granted a petition to modify the WLOX local market to include "Kiln, . . . and unincorporated areas of Hancock County Mississippi."<sup>4</sup> Kiln is located further away from the Stations' cities of license than Diamondhead. The

<sup>3</sup> *Exhibit 2.*

<sup>4</sup> *Liberty Corporation, Biloxi Mississippi, Petition for Modification of the Biloxi-Gulfport-Pascagoula, Mississippi ADI, CSR-4110-A, Memorandum Opinion and Order, 11 FCC Rcd 7 (1996).* ("WLOX Hancock County Market Modification Order")

Commission should expeditiously grant this Petition to include Diamondhead in the local market for WLOX and WXXV.

**A. Diamondhead is an Orphan County, Which Lends Substantial Weight in Favor of a Market Modification.**

Diamondhead is in Hancock County, Mississippi, but has been assigned to the New Orleans DMA making it an orphan county. Orphan counties with insufficient access to in-state programming are precisely the communities that Congress intended to assist by broadening the market modification process.<sup>5</sup> The legislative history observed that “many consumers, particularly those who reside in DMAs that cross State lines or cover vast geographic distances,” may “lack access to local television programming that is relevant to their everyday lives”, and the FCC is instructed to “consider the plight of these consumers when judging the merits of a [market modification] petition..., even if granting such modification would pose an economic challenge to various local television broadcast stations.”<sup>6</sup> Therefore, there must be substantial weight given “to the local and in-state programming a petitioner proposed to bring to the orphan counties, as well as to government official and consumer comments supporting a proposed market modification.”<sup>7</sup> Earlier this year, the Bureau, in granting a market modification request filed by Monongalia and Preston Counties in West Virginia, recognized that it was unusual that orphaned counties had close geographic proximity to, and historic cable carriage of, the in-state stations. In granting the Magnolia and Preston Petition, the Bureau noted “[T]he fact that the

<sup>5</sup> The “core purpose of this [market modification] provision of the STELAR [is] to promote consumer access to in-state and other relevant programming.” *Amendment to the Commission’s Rules Concerning Market Modification, Implementation of Section 102 of the STELA Reauthorization Act*, Report and Order, 30 FCC Rcd 10406, 10415, ¶ 12 (2015). (“*STELAR Market Modification Report and Order*”).

<sup>6</sup> Report from the Senate Committee on Commerce, Science, and Transportation accompanying S. 2799, 113<sup>th</sup> Cong., S. Rep. No. 113-322, at 11 (2014) (“*Senate Commerce Committee Report*”).

<sup>7</sup> STELAR Market Modification Report and Order, at 10417, n.61.

Counties can make strong showings on even these issues enables them to make a particularly strong case in favor of a grant of the Petitions”.<sup>8</sup> Similarly, Diamondhead is in close geographic proximity to WLOX and WXXV and has had historic carriage of both stations. As explained below, WLOX was carried in Diamondhead on the incumbent cable system at the date of inception (1985) and was only recently dropped by the incumbent system at the end of the last retransmission consent cycle. Further, the incumbent cable system continues to carry WXXV, in addition to the New Orleans DMA stations, however WXXV is not deemed local in Diamondhead putting its carriage in Diamondhead at risk. Diamondhead’s status as an orphan county, with the strong similarities to the Monongalia and Preston orphan county situation, weighs heavily in support of granting the market modification.<sup>9</sup> Similarly, the fact that Kiln, a Hancock County community further away from the Biloxi-Gulfport stations than Diamondhead and all unincorporated areas of Hancock County have been deemed within WLOX’s local market weighs heavily in support of the Commission granting the market modification petition for Diamondhead.<sup>10</sup>

## **II. BACKGROUND**

**WLOX.** WLOX is a full-power commercial broadcast station licensed to WLOX License Subsidiary, LLC and transmitting on virtual channel 13 from Biloxi, Mississippi in the Biloxi-Gulfport DMA. WLOX’s primary stream broadcasts programming affiliated with the

ABC network. WLOX's multicast streams broadcast programming affiliated with the CBS network.<sup>11</sup>

**WXXV.** WXXV is a full-power commercial broadcast station licensed to Morris Network of Mississippi, Inc. and transmitting on virtual channel 25 from Gulfport, Mississippi in the Biloxi-Gulfport DMA. WXXV's primary stream broadcasts programming affiliated with the FOX network. WXXV's multicast streams broadcast programming affiliated with the NBC network.<sup>12</sup>

**Telepak Networks, Inc., d/b/a C Spire Fiber.**

Telepak Networks, Inc. d/b/a C Spire Fiber ("C Spire Fiber") is a full service provider of Internet, telecommunications, video and network services. C Spire Fiber offers high-speed Internet, enhanced digital video services and voice services. C Spire Fiber is a wholly owned subsidiary of Telapex, Inc., a Ridgeland, Mississippi-based telecommunications company. C Spire Fiber and its other affiliates provide video service through 66 franchises throughout the state of Mississippi.

C Spire Fiber was granted a franchise by the City of Diamondhead, Mississippi to construct and operate a cable system and to offer video services in Diamondhead. A consistent question from City staff and community leaders was whether C Spire Fiber would carry stations from the Biloxi-Gulfport DMA, particularly WLOX which was recently dropped by the incumbent cable operator.

### III. MARKET MODIFICATION STANDARDS

In enacting must carry, Congress made clear its desire to preserve local broadcast television, finding where there was a “substantial governmental interest in ensuring” the continuation of “locally originated television broadcasting” and that television stations are “an important source” of local programming, especially for local news and public affairs programming.”<sup>13</sup> Congress also stressed the importance of localism in market modification proceedings: “In considering requests... [for market modification], the Commission shall afford particular attention to the value of localism....”<sup>14</sup> The Commission has similarly recognized that the underlying purpose of must carry is the “preservation of local television service and the local public interest programming provided by these broadcast stations.”<sup>15</sup>

Consistent with the preservation of localism, Congress recognized that in certain circumstances, a DMA may not fully reflect a particular station’s actual market of interest to viewers,<sup>16</sup> and provided that the Commission may:

[W]ith respect to a particular television broadcast station, include additional communities within its television market or exclude communities from such station’s television market to better effectuate the purposes of this section.<sup>17</sup>

In considering market modification petitions, Congress directed the Commission to consider these five factors:

1. Whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community;

---

<sup>13</sup> Cable Television Consumer Protection and Competition Act of 1992, Pub. L. 102-385, §§ 2(10)-(11), 106 Stat. 1460, 1-2 (1992) (emphasis added).

<sup>14</sup> 47 U.S.C. § 534(h)(1)(C)(ii).

<sup>15</sup> *Implementation of Section 4(G) of the Cable Television Consumer Protection and Competition Act of 1992, Home Shopping Station Issues*, Report and Order, 8 FCC Rcd 5321, ¶ 22 (1993) (emphasis added).

<sup>16</sup> See *House Committee on Energy and Commerce, Cable Television Consumer Protection and Competition Act of 1992*, H.R. Rep. No. 102-628, at 97 (1992).

<sup>17</sup> 47 U.S.C. § 534(h)(1)(C)(i).

2. Whether the television station provides coverage or other local service to such community;
3. Whether modifying the market of the television station would promote consumers' access to television broadcast station signals that originate in their State of residence;
4. Whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and
5. Evidence of viewing patterns in cable and noncable households within the areas served by the cable system or systems in such community.<sup>18</sup>

Applying the five factors to this case unequivocally establish that WLOX and WXXV are local to Diamondhead. The Commission should promptly grant this Petition.

#### **IV. WLOX SATISFIES ALL 5 STATUTORY FACTORS**

##### **A. Factor 1: WLOX has been historically carried in Diamondhead since 1985.**

The first statutory factor considers historical carriage. Under Section 614(h), the Commission must consider “whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community....”<sup>19</sup> This factor is particularly persuasive as strong evidence of historic carriage in orphan counties is not expected and when it is present it is of particular note.<sup>20</sup> Commission records indicate that WLOX was carried in Diamondhead by the incumbent cable system at its inception in 1985, and that it has been consistently carried in Diamondhead for 33 years.<sup>21</sup> WLOX was dropped January 1, 2018 from the incumbent cable system in Diamondhead, and the remaining portions of

---

<sup>18</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(I)-(V).

<sup>19</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(I).

<sup>20</sup> See *West Virginia Market Modification Order*, ¶ 20 .

<sup>21</sup> *Exhibit 3*.

Hancock County.<sup>22</sup> The Bureau previously found that WLOX met the historical carriage factor for Hancock County with 19 years of carriage.<sup>23</sup> WLOX was carried in the Diamondhead community by the incumbent cable provider for an 14 additional years, until January 1, 2018.<sup>24</sup> The historical carriage factor weighs heavily for granting the Petition.

**B. Factor 2: WLOX Provides Coverage and Local Service to Diamondhead, Meeting the Informational and Service Needs of the Residents.**

The second factor considers whether the television station provides coverage or other local service to the community.<sup>25</sup> The factor includes considering a station's noise level service contour ("NLSC") coverage, the station's proximity to the communities in terms of mileage, and whether it broadcasts local programming with a distinct nexus to the communities.<sup>26</sup>

**1. Diamondhead falls within WLOX's Noise Limited Service Contour.**

As evidenced by the NLSC map provided in Exhibit 5, WLOX's NLSC encompasses the Diamondhead community.<sup>27</sup> The signal strength is validated by the fact that WLOX's signal has been historically carried in Diamondhead, indicating that WLOX can provide local service of good quality. In addition, there are no natural terrain features or obstacles between Diamondhead and WLOX that would interfere with WLOX's service.

---

<sup>22</sup> *Exhibit 4*

<sup>23</sup> *WLOX Hancock County Market Modification Order*, ¶¶ 9, 12, and 15.

<sup>24</sup> *Exhibit 3*

<sup>25</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(II).

<sup>26</sup> *Mountain Broadcasting Corporation; For Modification of the Television Market for WMBC-TV, Newton, New Jersey*, Memorandum Opinion and Order, 27 FCC Rcd 2231, 2236, ¶ 10 (MB 2012).

<sup>27</sup> *Exhibit 5*. WLOX NLSC, Warren Communications News, Cable and Station Coverage Atlas (subscription required).

## **2. WLOX is geographically close to Diamondhead.**

The Commission also examines the geographic proximity between a station and the cable community when assessing whether the station provides local service within the meaning of the statute.<sup>28</sup> As evidenced in Exhibit 6, Diamondhead is located only 35 miles from WLOX's city of license, Biloxi, Mississippi.<sup>29</sup> Diamondhead is located only 35.3 miles from the WLOX transmitter.<sup>30</sup> The distance between Diamondhead and WLOX are within the range that the Commission has found acceptable in adding communities to stations' markets.<sup>31</sup> On the other hand, New Orleans is 58.7 miles away from Diamondhead, on the other side of Lake Pontchartrain.<sup>32</sup> This is almost double the distance from Diamondhead to Biloxi. Diamondhead's proximity to WLOX's city of license and transmitter strongly suggests that WLOX provides local service to the community.

## **3. WLOX provides programming of local interest to Diamondhead.**

Congress directed the Commission to "afford particular attention to the value of localism" when deciding a market modification petition.<sup>33</sup> To determine overall local service to the community, there must be an assessment of whether the programming provided by WLOX meets the informational and service needs of the local residents of the county, based on a review

---

<sup>28</sup> *Id.* at ¶ 10 ("[W]e look to...the station's proximity to the communities in terms of mileage...").

<sup>29</sup> *Exhibit 6.*

<sup>30</sup> *Exhibit 7.*

<sup>31</sup> *See, e.g., Burnham Broadcasting Company Bakersfield, California For Modification of Station KBAK-TV's ADI, Memorandum Opinion and Order, 10 FCC Rcd 7117 (1997) (adding a community that was over 48 miles away); Monongalia County, WV and Preston County, WV; Petitions for Modification of the Satellite Television Markets of WDTV, Weston, West Virginia, and WBOY-TV and WVFX, Clarksburg, West Virginia, MB Docket Nos. 17-274, 17-275, Memorandum Opinion and Order, 33 FCC Rcd 1168, ¶ 20 (MB 2018) (West Virginia) (adding communities that were 40 and 50 miles away).*

<sup>32</sup> *Exhibit 1.*

<sup>33</sup> 47 U.S.C. § 534(h)(1)(c)(ii).

of specific programming and on government and consumer comments.<sup>34</sup> Hancock County is in Mississippi's 4<sup>th</sup> United States Congressional District.<sup>35</sup> WLOX's coverage of local, state and national politics is directly relevant to voters in Diamondhead.<sup>36</sup> For example, on WLOX's website, there are 34 stories about Congressman Palazzo, who is the Congressman for the 4<sup>th</sup> district.<sup>37</sup> This is striking when compared to a search of the websites of WWL (New Orleans CBS), WDSU (New Orleans NBC), WVUE (New Orleans Fox) and WGNO (New Orleans ABC), which did not report a single story highlighting Congressman Palazzo.<sup>38</sup>

WLOX provides substantial local programming, including news programming, aimed at the Diamondhead community. A review of the WLOX programming guide indicates the vast amount of content directed at Mississippi residents.<sup>39</sup> On a typical day, from 4:30 AM to 7 AM WLOX ABC airs "Good Morning Mississippi." WLOX ABC also provides daily local news coverage from: 11:00 AM to 11:30 AM, 5:00 PM to 5:30 PM, 6:00 PM to 6:30 PM, and 10:00 PM to 10:30 PM, with a rerun of the 10 o'clock news at 1:00 AM.<sup>40</sup> WLOX CBS also airs "Good Morning Mississippi" from 4:00 to 7:00 AM and provides local news coverage from 5 to 5:30 PM, 6 to 6:30 PM, and 10 to 10:30 PM.<sup>41</sup> As demonstrated in Exhibit 9, an analysis of WLOX's website uncovered an extensive amount of news articles aimed at Diamondhead.<sup>42</sup> In 2018 alone, WLOX has covered a new visitors center coming to Diamondhead, the opening of a

<sup>42</sup> *Exhibit 9.*

public pumpkin patch in Diamondhead, a 9 mile water trail and the introduction of kayaks that launched this past summer in Diamondhead, coverage of a plane crash in Diamondhead, including raw footage of the wreckage, and the hosting of the Blessing of the Classics in Diamondhead, just to mention a few.<sup>43</sup> Since 2009 there have been over 100 stories that directly relate to the small Diamondhead community, besides hundreds more that apply to the entire region of southern Mississippi.<sup>44</sup> This local coverage included highly important and timely messages such as whether or not Diamondhead would become a city, information on burglars that robbed 7 businesses in Hancock County, including some in Diamondhead, that were still at large (which included identifying information about the suspect), up to date traffic information, such as when the major highway that runs through Diamondhead reopened after a large crash at the Diamondhead exit, and information about Diamondhead's new curbside recycling program.<sup>45</sup> Additionally, WLOX covers Hancock High School sports teams (the high school where most Diamondhead teenagers attend), Diamondhead traffic accidents, crime and human interest stories about residents.<sup>46</sup>

In the STELAR Market Modification Report and Order, the Commission noted that “local government and consumer comments in a market modification proceeding can help demonstrate a station’s nexus to the community at issue.”<sup>47</sup> A survey distributed by the Diamondhead Mayor’s office polling Diamondhead residents about their viewership preferences conclusively demonstrates that having access to WLOX is highly preferred over the current New

---

<sup>43</sup> *Id.*

<sup>44</sup> *See*, <https://www.wlox.com/search/Diamondhead/1/>

Orleans's stations.<sup>48</sup> When asked if the residents would like to receive the Biloxi/Gulfport stations, of 283 responses 277 residents answered yes.<sup>49</sup> This means that 97.9% of the Diamondhead residents that responded to the survey want to have access to the Biloxi/Gulfport channels. Even more telling are the results from the second question on the City of Diamondhead Survey which asked, "Do you feel like the New Orleans stations give you adequate coverage of local Diamondhead news and events?" 268/283 of all individuals polled responded no, equating to 94%. This survey indicates that the New Orleans stations are not providing adequate coverage of local Diamondhead issues.

In addition, over one hundred resident comments volunteered by the citizens further illustrate the point.<sup>50</sup> One resident stated, "Local coverage is needed to keep us informed on hurricane, natural disasters, criminal alerts, and scams, possible dangerous people we should be aware of in our community who are loose, politics, community events, etc. Please see that we get this coverage!" Another resident explained, "How can they not be considered local!!! Those are 'our' stations and they carry news and weather that we care about on the MS Gulf Coast. Up to the minute LOCAL weather is critical in such a volatile area. Minutes can mean lives. The New Orleans stations have no financial incentives to cover our MS Coast that we need and expect!!" As emphasized by this resident, since Diamondhead is along the coast of Mississippi in hurricane territory, it is essential that stations can provide up to date weather information that directly pertains to the viewers.

Lending even further evidence to the value Diamondhead places upon WLOX is the support the channels have from local governmental entities. Both Diamondhead Mayor Thomas

---

<sup>48</sup> *Exhibit 10 & 11.*("City of Diamond Survey").

<sup>49</sup> *Exhibit 11.*

<sup>50</sup> *Exhibit 10.*

E. Schafer, IV and the Hancock Chamber of Commerce wrote letters in support of making WLOX local to their community. Mayor Thomas E. Schafer explained, “WLOX and WXXV offer viewers in Diamondhead access to news stories about their local politicians, state politicians, Mississippi-related politics, stories of local human interest, coverage of local high school sports of interest to Diamondhead and news that relates directly to their home state of Mississippi.”<sup>51</sup> Tish H. Williams, the executive director of the Hancock Chamber of Commerce, reinforced the importance of WLOX to Diamondhead by explaining, “WLOX of Biloxi, MS and WXXV of Gulfport, MS provide coverage of news, weather, politics and sports that are relevant and applicable to individuals living in Diamondhead and have been historically carried in Diamondhead. Most residents of Diamondhead indicate their preference to receive their news coverage from these channels.”<sup>52</sup> This support from local government officials further reinforces the importance of making WLOX local to the Diamondhead community.

The foregoing examples of the abundant content focused on and valuable to the residents of Diamondhead, the support from Diamondhead residents, and the support from local government officials exemplifies the “local service” WLOX provides, amply demonstrating that WLOX provides local coverage to Diamondhead. As established by WLOX’s NLSC, the distance between Diamondhead and Biloxi, and its locally focused news and programming, WLOX provides coverage and other local service to Diamondhead, satisfying the second statutory factor.

---

<sup>51</sup> *Exhibit 12.*

<sup>52</sup> *Exhibit 13.*

**C. Factor 3: WLOX originates in Mississippi and all consumers reside in Mississippi.**

The third statutory factor considers access to stations that originate in the consumers' state of residence. This factor was added recently in the Satellite Reauthorization Act of 2014 to ensure that an MVPD's subscribers are "receiving news, politics, sports, emergency information, and other television programming relevant to their home state."<sup>53</sup> This factor requires a petition to show that the "involved station is licensed to a community within the same state as the new community."<sup>54</sup> The Commission must consider "whether modifying the market of the television station would promote consumers' access to television broadcast station signals that originate in their State of residence."<sup>55</sup> The Commission will give this factor increased weight if the station provides programming specifically related to subscribers' State of residence, and may give it even more weight if subscribers in the existing market have little or no access to such in-state programming.<sup>56</sup>

Modifying WLOX's local market will promote consumers' access to television broadcast station signals that originate in their State of residence. WLOX is licensed to Biloxi, Mississippi, which is within the same state as Diamondhead. The Commission should give this factor substantial weight, as Diamondhead is part of the New Orleans DMA and there are no

---

<sup>53</sup> STELAR Market Mod Order at ¶ 1..

<sup>54</sup> *Id.*, ¶¶ 4, 18. To satisfy this factor, the petitioner must "make a statement in its petition whether or not the station is licensed to a community within the same state as the new community." *Id.*, ¶ 20.

<sup>55</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(III).

<sup>56</sup> STELAR Market Mod Order, ¶¶ 1, 18. *See also Gray Television Licensee, LLC; for Modification of the Satellite Television Market for WSAW-TV, Wausau, Wisconsin*, Memorandum Opinion and Order, MB Docket No. 16-293, ¶ 27 (rel. Jan. 17, 2017) (In "orphan" county situations – where a county is served exclusively, or almost exclusively, by television stations coming from a neighboring state – the Commission "will give substantial weight to the in-state programming a petitioner proposes to bring to the orphan county when determining whether a nexus to a new community has been demonstrated, and will consider the other actors, when they apply, as enhancements to a petitioner's case.").

Mississippi stations with cities of license in the New Orleans DMA. This is particularly compelling because Cable One, the operator of the incumbent cable system within Diamondhead, dropped WLOX as a channel on January 1, 2018.<sup>57</sup> Therefore, the residents no longer have multichannel video programming distributor (“MVPD”) access to the in-state programming that WLOX provides. Modifying WLOX’s local market to include Diamondhead will ensure that residents receive news, politics, sports, emergency information, and other television programming relevant to their home state of Mississippi.

Based on this factor, the Commission has ample evidence to grant this Petition. Consideration of the additional factors further bolsters the case for including Diamondhead within WLOX’s market.

**D. Factor 4: No Other Stations Provide Local Coverage.**

The fourth statutory factor focuses on whether any other station “eligible to be carried by a cable system in such community . . . provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community.”<sup>58</sup> A search of the New Orleans DMA station websites provides minimal local programming aimed at Diamondhead. For example, WWL’s website (New Orleans CBS affiliate) retrieves only 2 stories that reference Diamondhead, one from 2011 and one from 2018.<sup>59</sup> A search of WDSU (New Orleans NBC affiliate) returns 1864 results, but none of the stories retrieved actually mention or discuss Diamondhead.<sup>60</sup> A google search of “WDSU

---

<sup>57</sup> *Exhibit 4.*

<sup>58</sup> 47 U.S.C. § 534(h)(1)(c)(IV)

<sup>59</sup> *Exhibit 8.*

<sup>60</sup> *Id.*

Diamondhead” returns only two stories that specifically mention Diamondhead.<sup>61</sup> A search of WGNO (New Orleans ABC affiliate) reveals 12 stories that reference Diamondhead, only 5 of which are of substantial, newsworthy content applicable to the Diamondhead residents.<sup>62</sup> Finally, a search of WVUE (New Orleans Fox affiliate) only returns 10 stories, ranging between 2012 and 2018.<sup>63</sup>

This is all even more striking when searching for politically relevant news, as referenced above, since New Orleans is not just in a different congressional district, but a different state with politics of little or no impact to the Diamondhead residents. Ultimately, while the New Orleans stations offer some minimal local coverage to Diamondhead, the coverage falls well short of the local service needed to adequately inform Diamondhead residents about local news, weather, sports and community affairs. This is not surprising given that subscribers in Diamondhead are located over 55 miles from New Orleans, in a different state, and on the eastern fringe of the New Orleans DMA, a DMA that covers over 14 parishes/counties, 12 of which are in Louisiana.<sup>64</sup> The lack of meaningful local coverage by the New Orleans DMA stations related to the Community supports granting the Petition.

At the very least, the extremely limited coverage of Diamondhead by the New Orleans DMA stations should be weighed as rendering this factor neutral. As the Media Bureau has

---

<sup>62</sup> Exhibit 8

<sup>63</sup> *Id.*

<sup>64</sup> See *Market Modifications and the New York Area of Dominant Influence, Petitions for Reconsideration and Applications for Review of: Cablevision Systems Corporation, Time Warner, WRNN-TV Associates Ltd., Mountain Broadcasting Corporation, Trinity Broadcasting of New York, Inc., Paxson New York License, Inc., WLNY TV, Inc.*, Memorandum Opinion and Order, 12 FCC Rcd 12262, ¶ 12 (1997) (“[T]he greater the distance between the cable community and the broadcaster, the less likely it is that the stations serve the local viewing audience from either a programming or technical perspective.”).

explained, “Congress did not intend this [factor] to bar a [market modification] claim, but instead [this factor] was intended to enhance its claim where it could be shown that other stations do not serve the communities at issue.”<sup>65</sup> Here, the limited local coverage provided by the in-DMA stations does not diminish the fact that WLOX overwhelmingly provides more local coverage to Diamondhead. The Commission should find that Diamondhead should be included in WLOX’s local market.

**E. Factor 5: WLOX has Viewership in Diamondhead.**

The fifth and final statutory factor that the Commission must consider in a market modification proceeding involves “evidence of viewing patterns in the households that subscribe and do not subscribe to the services offered by [MVPDs] within the areas served by such [MVPDs] in such community.”<sup>66</sup> This factor requires Petitioners to demonstrate that WLOX achieves at least “moderate” viewership in Diamondhead.<sup>67</sup> The Commission has generally found “moderate” viewership to be met when a station has measurable viewing patterns.<sup>68</sup> Petitioners have included a Nielsen report illustrating the station’s ratings in Hancock County,

---

<sup>65</sup> *Seal Rock Broadcasters, LLC; For Modification of the Television Market of Television Station KCBA (TV), Salinas, California*, Memorandum Opinion and Order, 18 FCC Rcd 16262, ¶ 9 (2003); *KSBW License, Inc., For Modification Television Broadcast Station KSBW’s ADI*, Memorandum Opinion and Order, 11 FCC Rcd 2368 (1996) (“*KSBW*”) (“[W]e do not believe that Congress intended for the third criterion to operate as a general bar to a station’s ADI claim in every circumstance whenever other stations could also be shown to serve the communities at issue. Rather, we believe that this criterion was intended to enhance a station’s claim where it could be shown that other stations do not serve the communities at issue.”).

<sup>67</sup> *See Ackerley Media Group, Inc. For Modification of the Television Market of Television Station KION (TV), Monterey, California*, Memorandum Opinion and Order, 18 FCC Rcd 16199, ¶ 10 (2003) (“*Ackerley*”), *citing KSBW*.

<sup>68</sup> *See, e.g., Commonwealth Broadcasting Group, Inc.; For Modification of the Greenwood/Greenville, Mississippi DMA*, Memorandum Opinion and Order, 25 FCC Rcd 213, ¶ 20, n.103 (2010) (the station demonstrated ratings shares and weekly cumulative ratings of 0/7, 1/34 and 1/25 in the relevant areas); *Ackerley*, ¶¶ 6, 11 (ratings shares were between two and three percent).

which includes Diamondhead.<sup>69</sup> The report shows carriage data from May 2017 - February 2018, which includes data from the time that WLOX was still available in the county on Cable One's system and demonstrates that WLOX is measurably viewed in Diamondhead.

The Nielsen data shows that WLOX reached 48% of Hancock County in a typical 24 hour measured window.<sup>70</sup> There are 17, 270 TV Households in Hancock County. This report indicates that WLOX is shown to have approximately 4,400 viewers in Hancock County, qualifying as a measurable viewing pattern. In the morning, WLOX had 1,151 viewers in Hancock County, accounting for 14% of the DMA viewing.<sup>71</sup> In the Total Day 3a-3a ratings, WLOX had approximately 440 viewers, accounting for 5% of the DMA viewing.<sup>72</sup> WLOX's stations were the most popular broadcast stations in Hancock County. Approximately 81% of Hancock County's residents stated they get their daily TV news from WLOX ABC.<sup>73</sup> In addition, WLOX is on the FCC's Significantly Viewed TV Stations list for Hancock County.<sup>74</sup> WLOX and WXXV station representatives indicate that approximately 23% of the population in Hancock County are over the air (antenna) viewers of WLOX and WXXV, further indicating that individuals in Hancock County turn to these two channels for their local news coverage needs.<sup>75</sup> This evidence proves that WLOX has viewership in Diamondhead and should result in positive weight for the fifth factor.

<sup>75</sup> Exhibit 15.

**F. An Economic Connection Exists Between WLOX's City of License and Diamondhead.**

The Commission recognizes that evidence in addition to the statutory factors helps define the scope of a station's market.<sup>76</sup> With WLOX, an important additional consideration is the strong economic connection, including shopping and labor, between WLOX's community of license, Biloxi, Mississippi, and Diamondhead.

The economic connection between Diamondhead and Biloxi-Gulfport DMA is set out in the letter from the Mayor of Diamondhead and the Hancock County Chamber of Commerce.<sup>77</sup> It is also emphasized in the resident's responses to the Diamondhead Survey Responses. One resident stated, "Personally, I work with media outlets in the New Orleans market. They have indicated to me that they don't consider the Mississippi Gulf Coast as part of their market and, therefore, carry very little news from that area."<sup>78</sup> Another resident explains, "Biloxi and Gulfport are close to half the distance between Diamondhead and New Orleans. Day to day shopping, medical care, and entertainment are in the Biloxi/Gulfport area. New Orleans broadcast stations do not include Diamondhead news and weather, the Biloxi-Gulfport stations

---

<sup>76</sup> See, e.g., *Massillon Cable TV, Inc.*, 26 FCC Rcd 15221, ¶ 3 (2011) (quoting legislative history of 1992 Cable Act that statutory factors "are not intended to be exclusive"); *Paxson Atlanta License, Inc.*, 13 FCC Rcd 20087, ¶ 29 (1998.) ("Paxson Atlanta") ("The factors specified in Section 614(h)(1)(C)(ii) of the Communications Act do not purport to be exclusive and thus other evidence may be considered that is helpful in defining the scope of the markets of the stations involved); *Adelphia Cablevision Associates, L.P.; For Modification of the ADI of WMFP(TV), Lawrence, Massachusetts*, Memorandum Opinion and Order, 14 FCC Rcd 7686, ¶ 18 (1999) ("[T]he Commission's decision ... takes into consideration the economic ties between the communities ... and the subject stations.").

<sup>77</sup> Exhibits 12 and 13.

<sup>78</sup> Exhibit 10.

do.”<sup>79</sup> The Diamondhead resident comments solidify the economic connection between Biloxi and Diamondhead.<sup>80</sup>

The Bureau has further recognized that key attributes of an economic connection between a station’s city of license and communities in its market include proximity and convenient transportation routes.<sup>81</sup> Diamondhead is connected to Biloxi by a major interstate, I-10, making it particularly easy for Diamondhead residents to access Biloxi for many of their everyday needs. Diamondhead is considered part of the Gulfport-Biloxi Metropolitan Statistical Area (“MSA”)<sup>82</sup> Labor statistics further illustrate the economic connection between Biloxi and Diamondhead. Census data reveals that a substantial percentage of people living in Diamondhead commute to work in Biloxi or Gulfport, as the average commute time for residents is 31 minutes.<sup>83</sup> Since Biloxi is a 40 minute drive and Gulfport is a 30 minute drive, this indicates that the residents that aren’t working in Diamondhead are likely commuting to Gulfport or Biloxi, and not New Orleans which is an hour drive.<sup>84</sup> Furthermore, if construction or traffic on the I-10 bridge over Lake Pontchartrain requires taking an alternate route to New Orleans, the next closest Pontchartrain crossing adds an additional 30 minutes to the travel time from Diamondhead.<sup>85</sup> This was especially frustrating after Hurricane Katrina which wiped out the I-10 bridge spans

<sup>84</sup> *Exhibits 1, 6 and 19.*

<sup>85</sup> *Exhibit 16.*

over Lake Pontchartrain in 2005 and the replacement spans were not opened until September 2011.<sup>86</sup> It is not surprising that Diamondhead residents work in Biloxi-Gulfport given that I-10 connects Biloxi to Diamondhead, allowing residents in Diamondhead to live, work and travel the area with relative ease.

On a City-data forum, an individual asked the community whether it would be feasible to live in Diamondhead, MS and work in New Orleans. The responses indicated that while some people make the commute, the traffic would be a major problem. "...I-10 in New Orleans East is going to be an issue. Very very bad traffic, plenty of wrecks and bad fog. My friend lived at the last Slidell exit before Mississippi and was in tears nearly every day because of traffic. They finally gave up and moved..."<sup>87</sup> This further emphasizes that Diamondhead is economically and geographically distinct from New Orleans, and most Diamondhead residents would likely turn to Biloxi for things such as jobs, shopping, entertainment, travel, and health care. This is reiterated by the Hancock Chamber of Commerce: "The residents of Diamondhead have a much more significant connection to the Biloxi and Gulfport areas. Diamondhead is 39 minutes from Biloxi and only 30 minutes from Gulfport. Diamondhead residents are much more likely to work, shop, and visit these two Mississippi cities on a regular basis. On the other hand, New Orleans is over an hour from Diamondhead, and the only reasonable means of accessing the city is across Lake Pontchartrain. Since the citizens of Diamondhead are much more likely to turn to Biloxi and Gulfport for their everyday needs, it is only natural they would be more interested in the coverage provided by the Biloxi/Gulfport stations, especially since the stations consider

---

<sup>86</sup> See Exhibit 25, [https://www.nola.com/traffic/index.ssf/2015/08/i-10\\_twin\\_span\\_bridges\\_reborn.html](https://www.nola.com/traffic/index.ssf/2015/08/i-10_twin_span_bridges_reborn.html)

<sup>87</sup> See Exhibit 26, <http://www.city-data.com/forum/new-orleans/1611939-commuting-diamondhead-nola-madness.html>

Diamondhead an important part of their coverage.”<sup>88</sup> In addition, the New Orleans airport is 68.5 miles away from Diamondhead, while the Gulfport-Biloxi International Airport is only 20.4 miles away.<sup>89</sup>

The economic connection between Biloxi and Diamondhead corroborates the analysis of the statutory factors – Diamondhead is local to WLOXs market, and the evidence presented here supports the requested market modification.

## **V. WXXV SATISFIES ALL 5 STATUTORY FACTORS**

### **A. Factor 1: WXXV has been Historically Carried in Diamondhead**

WXXV meets the first statutory factor, historical carriage. Available Commission records indicate that WXXV has been carried in Diamondhead by the incumbent cable operator since at least 2006 and has been consistently carried in Diamondhead during the past 12 years, including current carriage on the incumbent cable provider.<sup>90</sup> Since historic carriage in orphan counties is not expected, it is particularly persuasive that WXXV has been carried in this orphan county community consistently for at least the last 12 years.

### **B. Factor 2: WXXV Provides Coverage and Local Service to Diamondhead, Meeting the Informational and Service Needs of the Residents.**

The second factor considers whether the television station provides coverage or other local service to the community.<sup>91</sup> This factor includes considering a station’s signal contour

---

<sup>88</sup> *Exhibit 13. (emphasis added).*

<sup>89</sup> *Exhibit 17.*

<sup>90</sup> See, <https://www.cableone.net/cabletv/channel-lineup#DiamondheadChannelLineup> (Zip Code 39525). See also, *Exhibit 3.*

<sup>91</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(II).

coverage, the station's proximity to the communities in terms of mileage, and whether it broadcasts local programming with a distinct nexus to the communities.<sup>92</sup>

### **1. Diamondhead falls within WXXV's NLSC**

Diamondhead falls within the NLSC of WXXV<sup>93</sup>. The signal strength is validated by the fact that WXXV's signal has been historically carried in Diamondhead, indicating that WXXV can provide local service of good quality. In addition, there are no natural terrain features or obstacles between Diamondhead and WXXV that would interfere with WXXV's service.

### **2. WXXV is geographically close to Diamondhead**

The Commission also examines the geographic proximity between a station and the cable community when assessing whether the station provides local service within the meaning of the statute.<sup>94</sup> As is evidenced in Exhibit 19, Diamondhead is located only 22.7 miles away from Gulfport, which is a mere 30-minute drive.<sup>95</sup> This is striking when compared to New Orleans, which has double the distance and transit time at 58.7 miles and 1 hour and 1 minute.<sup>96</sup> The distance between Diamondhead and WXXV's city of license are within the range that the Commission has found acceptable in adding communities to stations' markets, or analogously, in declining the delete communities from stations' markets.<sup>97</sup> WXXV's proximity strongly suggests that WXXV provides local service to Diamondhead.

### 3. WXXV provides programming of local interest to Diamondhead

Congress directed the Commission to “afford particular attention to the value of localism” when deciding a market modification petition.<sup>98</sup> To determine overall local service to the community, there must be an assessment of whether the programming provided by WXXV meets the informational and service needs of the local residents of the county, based on a review of specific programming and on government and consumer comments.<sup>99</sup> As stated above, Hancock County is in Mississippi’s 4th United States Congressional District.<sup>100</sup> WXXV’s political coverage of local, state and national politics is directly relevant to voters in Diamondhead.<sup>101</sup> For example, on WXXV’s website, there are 85 stories about Congressman Palazzo, who is the Congressman for Mississippi’s 4th district.<sup>102</sup> Again, this is striking when compared to an examination of the websites of WWL (New Orleans CBS), WDSU (New Orleans NBC), WVUE (New Orleans Fox) and WGNO (New Orleans ABC), which do not have a single story highlighting Congressman Palazzo<sup>103</sup>.

WXXV provides substantial local programming, including news programming, aimed at the Diamondhead community. A review of the WXXV’s Programming Guide indicates the vast

---

8 (1996) (refusing to delete communities that were 60 miles from the station and 73 miles from the station’s transmitter); *Monongalia County, WV and Preston County, WV; Petitions for Modification of the Satellite Television Markets of WDTV, Weston, West Virginia, and WBOY-TV and WVFX, Clarksburg, West Virginia*, MB Docket Nos. 17-274, 17-275, Memorandum Opinion and Order, 33 FCC Rcd 1168, ¶ 20 (2018) (*West Virginia*) (adding communities that were 40 and 50 miles away).

<sup>98</sup> 47 U.S.C. § 534(h)(1)(c)(ii).

<sup>101</sup> *Exhibit 20*.

<sup>102</sup> See <https://www.wxxv25.com/?s=Palazzo>

<sup>103</sup> *Exhibit 8*.

amount of content directed at Mississippi residents.<sup>104</sup> WXXV Fox provides daily local news coverage 7 to 9 AM, 5 to 5:30 PM, and 9 to 10 PM.<sup>105</sup> WXXV NBC provides daily local news from 5 to 7 AM, 12 to 12:30 PM, 5:30 to 6 PM, and 10 to 10:30.<sup>106</sup> As demonstrated in Exhibit 21, an analysis of WXXV's website uncovered an extensive amount of news articles detailing coverage of local programming aimed at the Diamondhead. In 2018 alone, WXXV has covered the opening of the Diamondhead Bayou Drive Kayak Launch, a fatal accident on I-10 near Diamondhead, a Diamondhead businessman running for U.S. Senate, and a story introducing the new city manager for Diamondhead<sup>107</sup>. Since 2009 there have been over 130 stories that directly relate to the small Diamondhead community, besides over 220 more that apply to Hancock County.<sup>108</sup> This local coverage included highly important and timely messages such as announcements containing the time and location of town hall meetings, coverage of an accident causing delays on I-10, the review process for the Diamondhead mayoral election, information on the primary runoff elections, and updates on economic improvement projects in Diamondhead, including when the projects would be finished.<sup>109</sup>

WXXV has extensive coverage of Hancock High School sports teams (the high school where most Diamondhead teenagers attend). The station conducts a weekly report every Friday covering the Hancock High School football team in the fall, and cover the boys and girls basketball games, volleyball, and softball. Beyond sports, WXXV also covers the performance

<sup>109</sup> *Exhibit 21.*

arts center at Hancock High School, announcing upcoming plays, in addition to other general newsworthy topics regarding the school, such as closures for tropical storms and winter weather.

<sup>110</sup> All this coverage would be highly relevant and interesting to families in Diamondhead.

Finally, WXXV also covers Diamondhead traffic accidents, crime and human interest stories about residents.<sup>111</sup>

As noted, “local government and consumer comments in a market modification proceeding can help demonstrate a station’s nexus to the community at issue.”<sup>112</sup> The City of Diamondhead Survey demonstrates that having access to WXXV is highly preferred by the residents of Diamondhead over the current New Orleans’s stations.

As Diamondhead Mayor Thomas E. Schafer, IV notes:

Ever since WLOX was dropped from Cable One in January, I have been questioned by my constituents asking why they lost one of the only channels that provided a main source of local coverage. A constant theme is why do we receive the New Orleans stations rather than the nearby Gulfport and Biloxi stations. Residents now have only WXXV to rely upon for their news, sports, emergency information and weather. **If Cable One were to drop WXXV the Diamondhead residents would be left without coverage local to their home state from their local cable or satellite service provider.** The New Orleans stations, which are currently considered 'local' to Diamondhead, do not provide coverage of the Diamondhead community as they are on the edge of the New Orleans designated market area and are within a different state.<sup>113</sup>

---

<sup>110</sup> See <https://www.wxxv25.com/?s=hancock+high+school>.

<sup>111</sup> See <https://www.wxxv25.com/tag/diamondhead/>

<sup>112</sup> STELAR Market Modification Report and Order, 30 FCC Rcd at 10417, n 61.

<sup>113</sup> Exhibit 12.

The examples of the abundant content focused on and valuable to residents in Diamondhead exemplify the “local service” WXXV provides. As exemplified by WXXV’s NLSC, city of license, and its local interest news and programming, WXXV provides coverage and other local service to Diamondhead, satisfying the second statutory factor.

**C. Factor 3: WXXV Originates in Mississippi and All Consumers Reside in Mississippi.**

The third statutory factor considers access to stations that originate in the consumers’ state of residence.

Modifying WXXV’s local market will promote consumers’ access to television broadcast station signals that originate in their state of residence. WXXV is licensed to Gulfport, Mississippi, which is within the same state as Diamondhead. The Commission should give this factor increased weight because WXXV provides extensive programming for and about the residents of Mississippi, including coverage of the local high school, crime, traffic, and timely news. The Commission can assign even more weight to this factor because Diamondhead is on the fringe of the New Orleans DMA and receives little local coverage from the Louisiana stations. Modifying WXXV’s local market to include Diamondhead will ensure that subscribers receive news, politics, sports, emergency information, and other television programming relevant to their home state of Mississippi.

Based on this factor, the Commission has ample evidence to grant this Petition. Consideration of the additional factors further bolsters the case for including Diamondhead within WXXV’s market.

**D. Factor 4: No Other Stations Provide Local Coverage.**

The fourth statutory factor focuses on whether any other station “eligible to be carried by a cable system in such community...provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community.”<sup>114</sup> As noted above, a search of the New Orleans DMA station websites shows little local programming aimed at Diamondhead.

This is all even more striking when searching for politically relevant news, as referenced above. This is not surprising given that subscribers in these communities are located over 50 miles from New Orleans, Louisiana, in a different state, and on the eastern fringe of the New Orleans DMA, a DMA that covers 14 parishes/counties, twelve of which are in Louisiana.<sup>115</sup> The lack of meaningful local coverage by the New Orleans DMA stations and the abundance of coverage provided by WXXV related to Diamondhead supports granting the Petition.

At the very least, the extremely limited coverage of Diamondhead by the New Orleans DMA stations should be weighed as rendering this factor neutral. As the Media Bureau explained, “Congress did not intend this [factor] to bar a [market modification] claim, but instead [this factor] was intended to enhance its claim where it could be shown that other stations do not serve the communities at issue.”<sup>116</sup> Here, the limited local coverage provided by the in-DMA

---

<sup>114</sup> 47 U.S.C. §534(h)(1)(c)(IV).

<sup>115</sup> See *Market Modifications and the New York Area of Dominant Influence, Petitions for Reconsideration and Applications for Review of: Cablevision Systems Corporation, Time Warner, WRNN-TV Associates Ltd., Mountain Broadcasting Corporation, Trinity Broadcasting of New York, Inc., Paxson New York License, Inc., WLNY TV, Inc.*, Memorandum Opinion and Order, 12 FCC Rcd 12262, ¶ 12 (1997) (“[T]he greater the distance between the cable community and the broadcaster, the less likely it is that the stations serve the local viewing audience from either a programming or technical perspective.”).

<sup>116</sup> *Seal Rock Broadcasters, LLC; For Modification of the Television Market of Television Station KCBA (TV), Salinas, California*, Memorandum Opinion and Order, 18 FCC Rcd 16262, ¶ 9 (2003); *KSBW License, Inc., For Modification Television Broadcast Station KSBW’s ADI*, Memorandum Opinion and Order, 11 FCC Rcd 2368 (1996) (“KSBW”) (“[W]e do not believe that Congress intended for the third criterion to operate as a general bar to a station’s ADI claim in every circumstance whenever other stations could also be shown to serve the communities at issue. Rather, we believe that this criterion was intended to enhance a station’s claim where it could be shown that other stations do not serve the communities at issue.”).

stations does not diminish the fact that WXXV overwhelmingly provides more local coverage to Diamondhead. The Commission should find that Diamondhead should be included in WXXV's local market.

**E. Factor 5: WXXV has Viewership in Diamondhead.**

The fifth and final statutory factor that the Commission must consider in a market modification proceeding involves “evidence of viewing patterns in the households that subscribe and do not subscribe to the services offered by [MVPDs] within the areas served by such [MVPDs] in such community.”<sup>117</sup> This factor requires Petitioners to demonstrate that WXXV achieves at least “moderate” viewership in Diamondhead.<sup>118</sup> The Commission has generally found “moderate” viewership to be met when a station has measurable viewing patterns.<sup>119</sup>

Based upon the Nielsen Coverage Report, in the morning WXXV had 301 viewers in Hancock County, which accounts for 4% of DMA viewers.<sup>120</sup> Based upon the Total Day 3a-3a data, there are 125 households viewing WXXV, for 1% of the New Orleans DMA viewing. Approximately 38.7% of Hancock County's residents stated they get their daily TV news from WXXV ABC.<sup>121</sup> WLOX and WXXV station representatives indicate that approximately 23% of the population in Hancock County are over the air (antenna) viewers of WLOX and WXXV, further indicating that individuals in Hancock County turn to these two channels for their local

<sup>117</sup> 47 U.S.C. § 534(h)(1)(C)(V).

<sup>118</sup> See *Ackerley Media Group, Inc.; For Modification of the Television Market of Television Station KION (TV), Monterey, California*, Memorandum Opinion and Order, 18 FCC Rcd 16199, ¶ 10 (2003) (“Ackerley”), citing KSBW.

<sup>119</sup> See, e.g., *Commonwealth Broadcasting Group, Inc.; For Modification of the Greenwood/Greenville, Mississippi DMA*, Memorandum Opinion and Order, 25 FCC Rcd 213, ¶ 20, n.103 (2010) (the station demonstrated ratings shares and weekly cumulative ratings of 0/7, 1/34 and 1/25 in the relevant areas); Ackerley, ¶¶ 6, 11 (ratings shares were between two and three percent).

<sup>120</sup> See *Exhibit 14*. Based upon a sample size of 14 homes in Hancock County.

<sup>121</sup> *Id.*, Scarborough Research.

news coverage needs.<sup>122</sup> The foregoing evidence indicates that WXXV has viewership in Hancock County, and supports a finding of positive weight for the 5<sup>th</sup> factor by the Commission.

**F. An Economic Connection Exists Between WXXV’s City of License and Diamondhead.**

The Commission recognizes that evidence besides the statutory factors helps define the scope of a station’s market.<sup>123</sup> With WXXV, an important additional consideration is the strong economic connection between WXXV’s community of license, Gulfport, Mississippi, and Diamondhead.

As noted, key attributes of an economic connection between a station’s city of license and communities in its market include proximity and convenient transportation routes.<sup>124</sup> Diamondhead and Gulfport are connected by a major interstate, I-10, with Gulfport being a short 4.4 mile drive off the interstate.<sup>125</sup> This makes it easy and convenient for residents of Diamondhead to access Gulfport for their everyday needs. This is especially true in relation to air transportation needs, as the Gulfport-Biloxi International Airport is located merely 20 miles

---

<sup>122</sup> *Exhibit 15.*

<sup>123</sup> See, e.g., *Massillon Cable TV, Inc.*, 26 FCC Rcd 15221, ¶ 3 (2011) (quoting legislative history of 1992 Cable Act that statutory factors “are not intended to be exclusive”); *Paxson Atlanta*, ¶ 29 (“The factors specified in Section 614(h)(1)(C)(ii) of the Communications Act do not purport to be exclusive and thus other evidence may be considered that is helpful in defining the scope of the markets of the stations involved”); *Adelphia Cablevision Associates, L.P.; For Modification of the ADI of WMFP(TV), Lawrence, Massachusetts*, Memorandum Opinion and Order, 14 FCC Rcd 7686, ¶ 18 (1999) (“[T]he Commission’s decision ... takes into consideration the economic ties between the communities ... and the subject stations.”).

<sup>124</sup> *Armstrong Utilities, Inc.; Petition for Modification of the Philadelphia, Pennsylvania DMA*, Memorandum Opinion and Order, 21 FCC Rcd 13475, ¶16 (2006) (noting two-hour drive time between broadcaster city of license and cable communities as a factor supporting exclusion of area from station’s local market).

<sup>125</sup> *Exhibit 19.*

from Diamondhead.<sup>126</sup> This is striking when compared to the 68.5-mile distance between Diamondhead and the New Orleans airport.<sup>127</sup>

Labor statistics further illustrate the economic connection between Biloxi and Diamondhead. Census data reveals that a substantial percentage of people living in Diamondhead commute to work in Gulfport, as the average commute time for residents is 31 minutes.<sup>128</sup> This is compared to the hardships associated with commuting to New Orleans discussed above.

As noted by the Hancock Chamber of Commerce: “The residents of Diamondhead have a much more significant connection to the Biloxi and Gulfport areas. Diamondhead is 39 minutes from Biloxi and only 30 minutes from Gulfport. Diamondhead residents are much more likely to work, shop, and visit these two Mississippi cities on a regular basis. On the other hand, New Orleans is over an hour from Diamondhead, and the only reasonable means of accessing the city is across Lake Pontchartrain. Since the citizens of Diamondhead are much more likely to turn to Biloxi and Gulfport for their everyday needs, it is only natural they would be more interested in the coverage that the Biloxi/Gulfport stations provide them, especially since the stations consider Diamondhead an important part of their coverage.”<sup>129</sup>

The economic connection between Gulfport and Diamondhead corroborates the analysis of the statutory factors – Diamondhead is local to WXXV’s market, and the evidence presented here supports the requested market modification.

## **XI. CONCLUSION**

<sup>126</sup> *Exhibit 17.*

<sup>127</sup> *Id.*

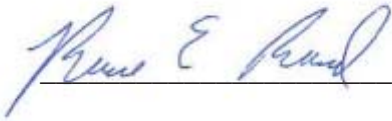

<sup>128</sup> *See Exhibit 24, <https://datausa.io/profile/geo/diamondhead-ms/>*

<sup>129</sup> *Exhibit 13.*

Based on the evidence in this Petition, Petitioners have met all statutory criteria for the Commission to find that WLOX and WXXV are local to Diamondhead. Additional factors weigh further for including Diamondhead in WLOX and WXXV's market. The Commission should expeditiously grant this Petition.

The signatory has read the Petition and, to the best of his knowledge, information and belief formed after reasonable inquiry, it is well grounded in fact and is warranted by existing law and is not interposed for any improper purpose.

Respectfully submitted,

By: \_\_\_\_\_

## Cable One Drops WLOX

Cable One customers lose WLOX in Hancock County | The Sun Herald

SunHerald

### BUSINESS

## Cable One customers in Hancock County just lost two channels

*Sun Herald*

January 02, 2018 05:21 PM

Cable One customers in Hancock County are no longer able to view WLOX's CBS and ABC channels, the cable company has confirmed.

However, CBS and ABC channels out of New Orleans — WWL and WGNO — will continue to be broadcast in the county.

“We no longer have an agreement to carry these channels, so we are no longer able to offer this duplicate programming to our customers,” said Cable One spokeswoman Patricia Niemann.

# EXHIBIT 5

The map displays the state of Louisiana with county boundaries and major cities. Two television stations are highlighted with their respective coverage areas, indicated by blue lines and labels:

- WDAM-TV**: Coverage area centered around Lake Charles, including counties like Calcasieu, Iberia, and St. Landry.
- WLOX**: Coverage area centered around New Orleans, including counties like Orleans, St. Bernard, and Jefferson.

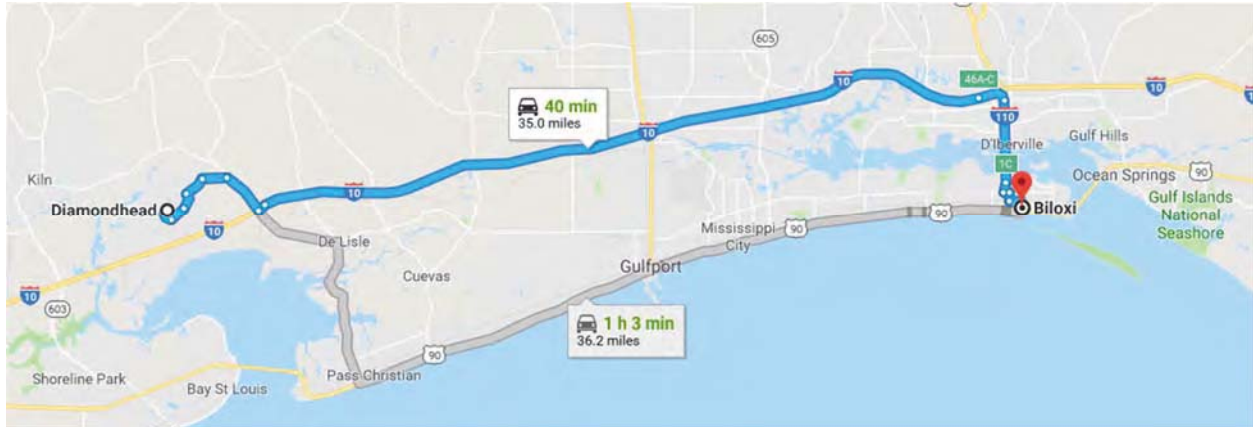

Other labeled locations include:
 

- Northwest Louisiana**: Bossier, Caddo, and Red River counties.
- Central Louisiana**: Bienville, Calcasieu, and Iberia counties.
- South Louisiana**: St. Charles, St. John the Baptist, and Terrebonne counties.
- Coastal Louisiana**: St. Martin, St. James, and Lafourcade counties.

### Palazzo proposes flood insurance relief

March 20, 2013 at 11:52 PM CDT - Updated July 3 at 12:00 AM

HANCOCK COUNTY, MS (WLOX) - A new bill introduced in Congress could bring flood insurance relief to thousands of Gulf Coast residents.

The measure, introduced by Congressman Steven Palazzo, is designed to slow down the rate increases in store for policy holders under the Biggert Flood Insurance Reform Act while at the same time keep the National Flood Insurance Program solvent.

There are 5.5 million flood insurance policy holders across the nation, nearly 100,000 of them call Mississippi home.

## Diamondhead elects Schafer as new mayor

By **WLOX Staff** | June 5, 2013 at 1:09 AM CDT - Updated July 25 at 5:25 PM

Schaefer with wife Camille and daughter Caroline. Image source: Thomas Schaefer Facebook page.

DIAMONDHEAD, MS (WLOX) - Thomas Schafer (R) won the Diamondhead mayor's race with 71 percent of the vote. Opponent John Fletcher (I) lost with 29 percent of the vote.

Schafer is Diamondhead's "first elected" mayor since Diamondhead became a city in 2012. Schafer will begin his new four year term as mayor on July 1.

Schafer told WLOX News some of his plans for Diamondhead. He also wants to lower taxes. He says the budget and spending is out of control in the city.

## Diamondhead, days from incorporation hearing

January 3, 2009 at 11:11 PM CST - Updated July 3 at 12:10 PM

By Danielle Thomas - [bio](#) | [email](#)

DIAMONDHEAD, MS (WLOX) - In a matter of days supporters and opponents of incorporating Diamondhead into a city will get a chance to make their case to a chancery court judge. A hearing is set for Friday morning.

Bob Terry lives on a Hancock County road that under the jurisdiction of the sheriff's department, but he believes it will take the formation of a Diamondhead Police Department to slow down drivers along Golf Club Drive.

"It's almost like a speed road where they drag race and whatever out here. So I'd like to see them slow down a little bit here," said Terry.

Some Diamondhead residents say they're hoping a chancery court ruling will favor incorporation.

Diamondhead resident Ed Smith said, "We'd get to keep our own tax money. We're the biggest population in the county, and it's just time. We need it."

"It's that we've gotten so big until we're down to the point that we really need to be an incorporated city," said Elodie Smith.

## Burglars hit 7 Hancock Co. businesses; Reward offered for info

May 14, 2013 at 10:34 PM CDT - Updated July 2 at 11:25 PM

Hancock County investigators are searching for a burglary suspect and his accomplice who have hit businesses in Diamondhead, Bay St. Louis and the Kiln.

HANCOCK COUNTY, MS (WLOX) - The Hancock County Sheriff's Department is asking for your help in capturing a burglary suspect and his accomplice. Investigators believe the duo have hit at least seven businesses in Diamondhead, Bay St. Louis and the Kiln.

The deputies are hoping someone will recognize the suspects through surveillance videos released Tuesday.

Sheriff's investigators say a tobacco shop in the back of Diamondhead is the latest to be burglarized. The door is still boarded up from the Sunday night robbery. A few weeks ago, two nearby businesses, a liquor store and a pizza restaurant, were victimized.

"They violated our space. Our restaurant was broke in and they stole some things, so, yes, it's bothersome," said Tonya Martin.

## I-10 reopens after vehicle fire, multiple crashes in Hancock County

By [Lindsay Knowles](#) | June 7, 2018 at 10:59 AM CDT - Updated August 13 at 11:55 PM

HANCOCK COUNTY, MS (WLOX) - Traffic is moving again on Interstate 10 after a truck pulling a trailer full of ammunition caught fire early Thursday morning in Hancock County.

It happened at 6:30 a.m. near mile marker 16, just east of the Diamondhead exit. Authorities say they immediately shut down both westbound lanes as a safety precaution once they realized there was ammunition in the vehicle.

While those lanes were closed, there were two separate rear-end crashes, one of which involved a vehicle fire. Five vehicles were involved in that crash, with two people being taken to the hospital with non-life-threatening injuries. The second rear-end crash involved two vehicles and did not have any injuries reported.

### **Diamondhead Resident Survey—Sample Feedback**

1. I watch our local news (WLOX) to get my news. They cover our city and Hancock County. I need to use an antenna to watch WLOX.
2. Notifications of closure due to weather such as streets, schools etc. Local Election results and local happening in our area.
3. Hate having to watch New Orleans news.
4. Living in Mississippi, I want Mississippi news and weather
5. There are several programs on WLOX that we can no longer receive in Diamondhead. If we had an alternative to CableOne, we would switch immediately.
6. We just had elections and had no information about Mississippi races for Federal office and local offices from the New Orleans stations.
7. I have lived in Mississippi for the last 50 years and truly miss Mississippi News. Also, I absolutely dislike Louisiana news.
8. Would like to get MS Public Television
9. Havin Biloxi/Gulfport channels would be critical during a hurricane.
10. Local channels are long overdue. I've had to resort to getting local news over the internet
11. Cable One took our WLOX signal away from us and we miss the WLOX news and weather.
12. Local is always better!
13. Physical and Line of Sight distance, and State boundary, preclude the use of New Orleans TV Stations as my main information supplier. Local weather is rarely discussed or covered by the New Orleans TV Stations. Little to NO local news is covered by the New Orleans TV Stations.
14. I have lived here in Diamondhead for 26 years and I never know what's going on here I know about New Orleans- the city I left and don't want to know about! Please give us WLOX!!!
15. NOLA coverage is nice but there's so much in Gulfport, Biloxi and Ocean Springs we know nothing about. Thank you.
16. We need our local news desperately. We are not in Louisiana!!!
17. WLOX has always covered local news in Hancock County and Diamondhead, and it's a shame that we no longer get those channels through the current cable provider. Diamondhead is NOT LOCAL to New Orleans, which is an hour away!!!
18. It is a travesty that people just over the line in Harrison County can access the local stations. On top of that, people in Waveland, here in Hancock County, also get them through their cable system. We want and deserve our local channels.
19. I understand that WLOX has its broadcast tower within 10 miles of City Diamondhead, while NOLA stations are 70 miles away and across the State line. Fairness says our "Gulf Coast" stations should be available here
20. We enjoy the New Orleans and Mobile, AL stations provided by CableOne, my current provider. CableOne dropped our local WLOX- ABC saying we were not in the market area, which is ridiculous. I will go with C-Spire if they can provide our local area stations.
21. As a border community between 2 TV markets we fall into the New Orleans market which is approximately 50 miles away and does not provide accurate weather or community news. The MS network is less than 30 miles away and covers our community news and weather. We should have free access to relevant information for our community. Especially weather since we are a coastal community.
22. It only makes sense for us to have Mississippi news. New Orleans is 60 miles away and our culture and needs are totally different!!!
23. News & weather for the Gulfport/Biloxi area are hardly mentioned on New Orleans network channels. This is not satisfactory due to the frequent severe weather we have. Local is local, not New Orleans, Mobile, Or Jackson.
24. It is beyond ridiculous that my cable provider in Diamondhead has NO Mississippi station coverage! Why are they in our market??

25. Makes no sense to me that a city in MS can only receive New Orleans news
26. Not having local news is terrible. Hate New Orleans news.
27. We are part of the Mississippi gulf coast and we deserve local Mississippi news stations! I don't know why it wasn't given to us from day one. Why do we need news from a state we aren't even in????
28. New Orleans Louisiana based news stations are NOT our local news.
29. The New Orleans channels carry absolutely nothing about Mississippi and our area here in Diamondhead. At the present time we have no access to WLOX and our other Mississippi stations. Please include them in the CSpire package. Thank you.
30. Never understood how one county 25 miles from Gulfport/Biloxi and part of three gulf cost that share that waterline could be considered part of N O viewing area.
31. Gulfport is 15 miles away while New Orleans is 50 and in a different state.
32. This is a problem in Diamondhead, Mississippi! Weather and news needed for safety!
33. LOCAL COVERAGE IS NEEDED TO KEEP US INFORMED ON HURRICANE, NATURAL DISASTERS, CRIMINAL ALERTS AND SCAMS, POSSIBLE DANGEROUS PEOPLE WE SHOULD BE AWARE OF IN OUR COMMUNITY WHO ARE LOSE, POLITICS, COMMUNITY EVENTS, ETC. PLEASE SEE THAT WE GET THIS COVERAGE!
34. Receiving broadcast from stations in the Biloxi/Gulfport area is very important in Diamondhead. This especially important for being updated during hurricane season and receiving local storm reports daily. In addition, it would be nice to hear what is happening in Mississippi
35. This Boils Down to Safety for All Residents!! Can we Say Katrina??? Completely Unacceptable Over Dollars and Sense!! Common Sense!!!
36. I want local news, not some city that's an hour away. I don't care about New Orleans.
37. I feel that since we are Mississippi residents, we should be able to watch MS news and know what is going on in our own state and communities. It seems only logical to give us MS Gulf Coast News Channels!
38. We deserve to have our LOCAL stations aired in Diamondhead.
39. we are not in the New Orleans viewing area. Gulfport, Biloxi is our viewing area.
40. I live in Mississippi, I should be able to receive local Mississippi news.
41. We need local channels for especially for the weather!
42. We NEED to have access to the Gulfport channel for weather and local news. Things are changing on the coast at a rapid speed and we need to know what's happening!
43. We need WLOX channel for our local news.
44. I live in MS. I must vote in MS. I would like to know what is happening in MS.
45. I have said it for a long time as right now I have direct TV and don't have access to WLOX. It's wrong to make us watch New Orleans news. This should have been updated long ago.
46. How can they not be considered local!!! Those are "our" stations and they carry news and weather that we care about on the MS Gulf Coast. Up to the minute LOCAL weather is critical in such a volatile area. Minutes can mean lives. The New Orleans stations have no financial incentives to cover our MS Coast they we need and expect!!
47. It is essential that residents of Diamondhead have access to WLOX and other local Mississippi stations.
48. The source of our local news is in South Mississippi. The New Orleans stations basically NEVER cover any news from Hancock County. We want and need local news and weather reports.
49. What goes on in NEW O has nothing to do with the Mississippi Gulf Coast. We very much would appreciate local coverage.
50. Local stations used to be available in Diamondhead. We were not given a good reason as to why they stopped.

51. With our Community being on the gulf coast I feel it's necessary we had our local weather forecasts especially during times of hurricane. I would also enjoy hearing are local news.
52. WXXV offers the Saints game broadcast quite often, and it would be great to have that
53. Please get 13 WLOX TV and 25 WXXV on our local station.
54. I live in Mississippi. I do not want stations from another state!!!!
55. During a storm the New Orleans channels do not cover the Diamondhead area adequately.
56. We have asked this of the FCC for years. The tv stations in New Orleans have no relevance at all to our community. In addition, WLOX does not reach us clearly via antenna, especially in bad weather.
57. To not have local (MS) stations is ludicrous. I need to judge the differences between AL (Mobile) & LA (NOLA) Canadian weather stations got it "right" during Katrina, MS is the land mass between NOLA & Mobile.
58. We feel it is outrageous that we live in Mississippi and cannot get vital information in the state we live. I live here pay taxes and all I hear is New Orleans info, weather and news. It's a crime!
59. We have always considered WLOX and WXXV our source for local news, weather and emergency information. Now, we need to turn to the internet for help in these matters. We used to at least be able to pick up WLOX on our expensive digital tv antennae but now we cannot even pick it up on antennae. How does this make sense to anyone?! We hope this situation is corrected in the future.
60. Since moving here, I have no access to Mississippi news. This change would help me become better informed about local news and issues.
61. I do not understand why I can't have WLOX local news coverage!!! It's maddening. I'm ready to drop all servers... especially AT&T.
62. We need local news and weather New Orleans news don't tell you anything about our news I don't understand why we can't get it
63. State & local news & weather forecasting is not provided for our area, Diamondhead & Hancock County. Our weather is different from the New Orleans area & we need adequate forecasting, especially during hurricane season. We also need to know about upcoming community events. (Most of us don't go to New Orleans very often!)
64. Having local news is very important for elections, emergencies, weather etc.
65. The sooner, the better. We get virtually no local news from NOLA stations, & precious little local weather info.
66. The safety and well-being of my family is better served with news from Mississippi's TV and news programs.
67. Diamondhead is in MS not LA. Local MS channels are required especially in hazardous weather conditions.
68. I want news from my own state.
69. They give a better weather and road report for Diamondhead. Also, we get more Crime news about what is going on the MS Gulf Coast. We need a more unbiased news with real unbiased journalist that are journalist. We need un-biased reporters on local elections in the state of Mississippi.
70. Our weather and road conditions are at times very different from New Orleans. It would be nice to our emergency notifications on our TV stations.
71. Personally, I work with media outlets in the New Orleans market. They have indicated to me that they don't consider the Mississippi Gulf Coast as part of their market and, therefore, carry very little news from that area. WDSU does have a partnership with WLOX so that they carry more stories than the others.
72. I want to get the local news for my area even if it costs giving up NO channels from the same network.
73. Biloxi and Gulfport are close to half the distance between Diamondhead and New Orleans. Day to day shopping, medical care, and entertainment are in the Biloxi/Gulfport area. New Orleans

broadcast stations do not include Diamondhead news and weather. The Biloxi/Gulfport stations do.

74. This is a public safety issue. Storms, road closures, evacuation notices, etc. come from local officials. Diamondhead residents need these local channels. These stations consistently send news people to Diamondhead and cover Diamondhead and Hancock.
75. Would like WLOX
76. I do not have Mississippi need on DISH so I feel left out of the loop. I need to know local news not out of state news.
77. We need local news. We cannot follow local political races or even weather forecasts and current events.  
I have DirectTV. I get only local news.
78. Our local stations are 25 miles away, we need local coverage as we had in the past before CableOne decided we were in the New Orleans market area, how stupid is that? Our local merchants can forget about advertising.
79. While we get some for the Gulf Coast out of New Orleans, it would be far preferable to get it locally. Local news coverage is non-existent on the N.O. stations.
80. Cannot understand why I need to use rabbit ears to watch local news/info. I could care less about New Orleans / Louisiana news.
81. As purchasers of goods that are advertised on television, the marketing on the New Orleans stations is totally wasted on us because we will not go to New Orleans to shop or eat. We will shop in the Gulfport/Biloxi market, but we are completely shut off from that information and have been for many months. I cannot believe that Diamondhead is listed in the New Orleans market. Unfortunately, we are not interested in contracting with CSpire for television because we have Cable one.
82. We need these local channels!
83. We live in Mississippi and deserve MS news. We do not live in Louisiana, and most couldn't care less about New Orleans news.
84. We deserve news and weather from our own state
85. I live in Diamondhead, MS and cannot receive NOLA or Biloxi stations using an OTA antenna. Would prefer GPT/BIX local news over NOLA that tell me nothing about local news.
86. The recent hurricanes point out that our weather coverage out of New Orleans is not relevant to what is happening in MS, particularly closings and road conditions!!!!
87. We want WLOX back! New Orleans is not our community!
88. We are closer to WLOX and not NOLA and NOLA doesn't report any news for us, but WLOX does, but people in Diamondhead can't see it WTF.
89. I tried contacting the FCC and got nowhere. I wish CSpire the best of luck.
90. Getting local weather is important, not what is going on in N.O.  
Same for traffic reports, local political news, infrastructure problems or repairs, etc.
91. We need the local Gulf Coast Stations from WLOX and others. we are SICK & TIRED of New Orleans and Mobile stations that DO NOT cover the coast well
92. We are Mississippi NOT Louisiana. Preference should be given for Diamondhead to receive our Mississippi broadcast stations.
93. I want Biloxi/Gulfport not New Orleans
94. Miss WLOX
95. We want WLOX for local news, weather and political coverage.
96. We feel left out of any Mississippi news. We need to see the Gulfport stations as we have for more than 15 years. Not fair to us. We have no interest of N.O. stations for local news. We have no access to local Mississippi news.
97. Simple - I live in Diamondhead MS, not in the New Orleans LA area.
98. Biloxi/Gulfport covers news along the Coast of Mississippi. The weather, issues, politics and local information is vastly different from that of the Greater New Orleans area.

99. I rely heavily on being able to see WLOX with its local news coverage and I think access to WLOX should not be tied to any TV subscriptions. NOLA stations definitely do not give adequate coverage of information pertinent to my location.
100. Hancock County is a Mississippi government entity. Our local news is off the coast and not off New Orleans.

To Whom it May Concern,

I am the Mayor of Diamondhead Mississippi and I write this letter to support the Diamondhead market modification petition to make WLOX of Biloxi, MS and WXXV of Gulfport, MS considered local to Diamondhead. WLOX and WXXV provide news of local interest to the Diamondhead community and are the preferred stations of the residents.

Ever since WLOX was dropped from Cable One in January, I have been questioned by my constituents asking why they lost one of the only channels that provided a main source of local coverage. A constant theme is why do we receive the New Orleans stations rather than the nearby Gulfport and Biloxi stations. Residents now have only WXXV to rely upon for their news, sports, emergency information and weather. If Cable One were to drop WXXV the Diamondhead residents would be left without coverage local to their home state from their local cable or satellite service provider. The New Orleans stations, which are currently considered 'local' to Diamondhead, do not provide coverage of the Diamondhead community as they are on the edge of the New Orleans designated market area and are within a different state.

When comparing the coverage offered by WLOX and WXXV versus that of the New Orleans stations, it is evident that WLOX and WXXV are the "local channels". The New Orleans stations have no little to no news of interest to Diamondhead residents. On the other hand, WLOX and WXXV offer viewers in Diamondhead access to news stories about their local politicians, state politicians, Mississippi-related politics, stories of local human interest, coverage of local high school sports of interest to Diamondhead and news that relates directly to their home state of Mississippi. To ensure that the Diamondhead residents retain access to local information, our community must be permanently assigned to the Biloxi Gulfport designated market area so that we are assured of receiving WLOX and WXXV.

I appreciate the time you have spent in considering this request. Please contact me if you have questions pertaining to this issue.

Sincerely,

  
Thomas E. Schafer, IV  
Mayor  
228-493-3363

Ridgeland, MS 39157

To Whom It May Concern:

I write this letter to indicate my support for assigning Diamondhead, Mississippi to the Biloxi/Gulfport designated market area for television carriage purposes. The residents of Diamondhead currently receive television stations from New Orleans as their "local" channels from their cable and satellite providers. The New Orleans stations have little incentive to provide stories with a nexus to Diamondhead, as it is a small city in a different state. The only way to ensure that Diamondhead citizens can access in state and local coverage is if Diamondhead is assigned to the Biloxi/Gulfport designated market area for local television purposes.

WLOX of Biloxi, MS and WXXV of Gulfport, MS provide coverage of news, weather, politics and sports that are relevant and applicable to individuals living in Diamondhead and have been historically carried in Diamondhead. Most residents of Diamondhead indicate their preference to receive their news coverage from these channels. However, earlier this year Cable One dropped WLOX from their channel lineup. As a result, cable subscribers in Diamondhead were deprived of one of their main sources of local news. If WXXV were to also be dropped from Cable One's system, the Diamondhead residents would have no access to television stations providing information and news relevant to their community or home state.

The residents of Diamondhead have a much more significant connection to the Biloxi and Gulfport areas. Diamondhead is 39 minutes from Biloxi and only 30 minutes from Gulfport. Diamondhead residents are much more likely to work, shop and visit these two Mississippi cities on a regular basis. On the other hand, New Orleans is over an hour from Diamondhead, and the only reasonable means of accessing the city is across Lake Pontchartrain. Since the citizens of Diamondhead are much more likely to turn to Biloxi and Gulfport for their everyday needs, it is only natural they would be more interested in the coverage that the Biloxi/Gulfport stations provide them, especially since the stations consider Diamondhead an important part of their local coverage.

I urge you to permanently assign Diamondhead to the Biloxi/Gulfport designated market area for television carriage purposes so the residents of Diamondhead are ensured access to local news and coverage. If you have additional questions, please do not hesitate to contact me.

Sincerely,

Tish H. Williams

**DECLARATION OF REESE GOODE**

I, Reese Goode, declare the following to be true:

1. My name Reese Goode and I am employed as an Associate Media Director at the Johnson Group, an advertising and marketing company located in Chattanooga Tennessee
2. As part of my job I work for various companies including C-Spire.
3. At C-Spire's request I recently inquired into television viewership information pertaining to Hancock County, Mississippi and Diamondhead, Mississippi from the local station representatives at broadcast stations WLOX and WXXV who stated that:
  - a. Approximately 23% of the population in Hancock County are over the air (antenna) viewers of the two stations (WLOX/WXXV).
  - b. None of the satellite providers or cable companies in Hancock County carry the local Biloxi station (WLOX).

I hereby declare under penalty of perjury that the facts set forth in this Declaration are true to the best of my knowledge, information and belief.

Dated: 11/5/18

# EXHIBIT 25

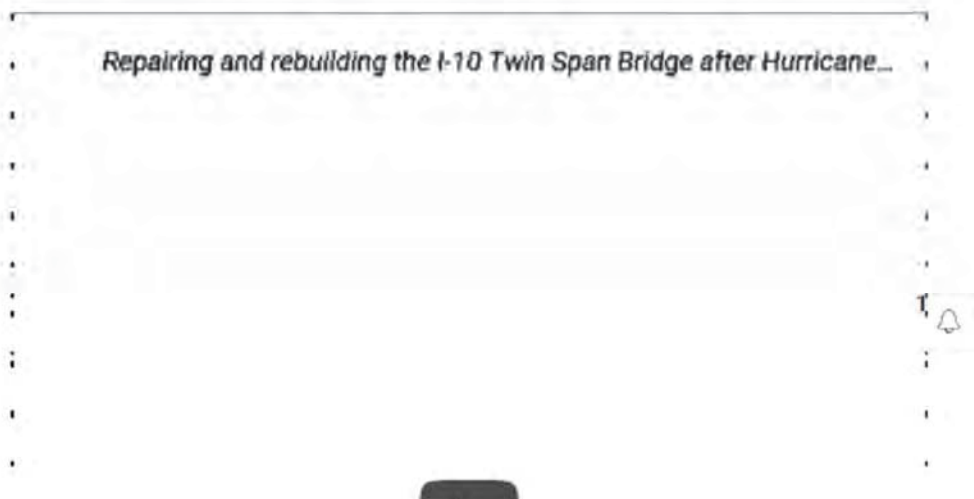

The massive storm surge that pushed into Lake Pontchartrain lifted sections of the two bridges, knocking them out of alignment or sending them to the bottom of the lake. Patchwork bridges reopened in phases over the ensuing months and years until the new, \$803 million twin spans opened in September 2011.

The new, three-lane spans stand 30 feet above the lake (60 feet in high-rise sections) where the old bridge was eight feet off the lake. A section of the old twin spans, which opened to traffic in 1965, is now the St. Tammany Parish fishing pier.

The state Department of Transportation and Development's efforts to replace the battered bridges are the subject of a video the department posted recently to mark the 10th anniversary of Hurricane Katrina.

"It looked like a line of dominoes that had just fallen," Sherri LeBas, head of DOTD says in the video of the damaged spans.

Hello,

My wife and I are considering moving to Diamondhead, MS as I will be working in Biloxi and she in New Orleans. Originally we had been looking at Slidell, but have not found too much. Do you think a daily commute from Diamondhead to NOLA is absolute madness?

Many, many thanks!

**darlene9947**

Until 2 years ago, I lived in Slidell. Commute leaving Slidell at about 7:15 in the AM, would get to Poydras St. about 8:30. I'm not working anymore, but it takes me right now about 20-25 minutes to get to Slidell from Diamondhead. I think they also have some commuter vanpools that run from MS to New Orleans.

**Yattycathy**

Well, a lot of people do it but the "high rise" and I-10 in New Orleans East is going to be an issue. Very very bad traffic, plenty of wrecks and bad fog. My friend lived at the last Slidell exit before Mississippi and was in tears nearly every day because of traffic. They finally gave up and moved to [Covington](#) where the commute time is about the same/a little less but the traffic is much better.
